DETAILED ACTION

1. The selection from the restriction requirement filed April 27, 2007 is entered and claims 1-33 are pending.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: please cancel claims 26-33 without prejudice.

Allowable Subject Matter

3. Claims 1 to 25 are allowed.
4. The following is an examiner's statement of reasons for allowance: the claimed invention is directed to a display drive control device.

Independent claim 1 identifies a uniquely distinct feature "wherein said power supply sequencer controls said power supply circuit based on a setting value set to each register containing said plurality of first registers and outputs a signal for time control of said plurality of voltages based on predetermined time".

Independent claim 15 identifies a uniquely distinct feature "wherein said drive method of said display drive control device is constituted such that after said main

power supply stops supplying power, and then restarts supplying power, setting values for turning off said display device are registered to registers in said power supply sequencer and to said instruction register”.

Independent claim 23 identifies a uniquely distinct feature “a power supply sequencer to provide time control for said power supply circuit based on setting values registered to said plurality of first registers”.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Morita (Patent # 7,079,103).

The closest art, Morita as discussed above, either singularly or in combination, fails to anticipate or render obvious the above limitations obvious.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
